

# Table of Contents

Foreword .....	VII
Acknowledgments .....	IX
Introduction .....	XI
<b>Chapter 1 Evidence-Based Design .....</b>	<b>I</b>
What Is Evidence-Based Design? .....	2
Benefits of a Healing (Reduced-Stress) Environment .....	6
Neuroscience Provides Insights .....	10
The Power of the Built Environment .....	12
Research—Getting Started .....	13
Concluding Remarks .....	19
<b>Chapter 2 Research Methods .....</b>	<b>23</b>
Types of Research Methods .....	24
Study Design .....	24
The Pebble Project Research Initiative .....	27
Fable Hospital .....	30
Concluding Remarks .....	31
<b>Chapter 3 Patient Safety and Infection Control .....</b>	<b>35</b>
Hospitals Are Scary Places .....	36
Focus on Patient Safety .....	36
The Built Environment as a Risk Factor for Infection .....	48
Concluding Remarks .....	59
<b>Chapter 4 Incorporating Research into Design Features .....</b>	<b>63</b>
Lighting .....	63
Ceilings .....	65
Acoustics .....	66
Views: Connecting Patients to Nature .....	70
Artwork .....	71
Concluding Remarks .....	75
<b>Chapter 5 Designing the Experience: Choreographing the Patient/Process Interface .....</b>	<b>79</b>
Creating Memorable Experiences .....	80
What Do Patients Really Want? .....	85
Importance of the Built Environment .....	87
Designing the Experience .....	89
Image Pages .....	5.1

**Chapter 6 Staff Spaces: Nurturing the Healers ..... 103**

    What Is a Restorative Environment? ..... 104

    Human Factors and Ergonomic Design ..... 105

    Physician Lounges ..... 106

    Image Pages ..... 6.1

**Chapter 7 Patient Units: Planning Considerations ..... 109**

    Benefits of Single Occupancy Rooms ..... 109

    Attempts to Rethink Care at the Bedside ..... 112

    Patient Room Design Features ..... 125

    LDR/LDRP Rooms ..... 127

    Critical Care ..... 128

    Image Pages ..... 7.1

**Chapter 8 Diagnostics: Discovering the Invisible ..... 131**

    Restorative Benefits of Natural Environments ..... 132

    Positive Distraction ..... 132

    Examination Rooms..... 134

    Image Pages ..... 8.1

**Chapter 9 Procedures: Fear of the Unknown ..... 137**

    Can a Less Stressful Hospital Experience Lead to Better Postsurgical Outcomes? ..... 138

    The Built Environment as a Therapeutic Intervention ..... 140

    Emergency Departments ..... 141

    Surgery ..... 146

    Concluding Remarks..... 147

    Image Pages..... 9.1

**Chapter 10 Cancer Treatment: Touching the Spirit ..... 149**

    Psychological and Behavioral Issues Associated with Cancer ..... 149

    Design Considerations ..... 151

    Designing the Patient-Centered Facility..... 152

    Family-Centered Care ..... 154

    A Model of Care Worth Noting ..... 155

    Concluding Remarks ..... 155

    Image Pages ..... 10.1

**Index ..... 157**

**Project Index ..... 165**
