

THE CENTER FOR HEALTH DESIGN®
Presents

ICONS & Innovators Webinar Series

Patrick Testa is a Consultant on the Facility Planning Forum at the Advisory Board, serving leading health care design, architecture, and construction firms nationwide. In this capacity, Patrick has worked on a variety of research studies, briefings, and presentations exploring facility strategy in the post-reform era, the impact of new delivery models on the built environment, and the future of hospital infrastructure investments and capital deployment. His research efforts focus on the regulatory and economic forces that will transform the U.S. health care industry over the coming decades.

Patrick holds a Masters of Health Services Administration from the University of Michigan, Ann Arbor.
