Knowledge Repository News

It's been a busy two months of entries into the Knowledge Repository with 47 new additions! Half of the new citations address three topics - infection control, acoustics/noise, and dementia care, and these citations reflect a combination of peer-reviewed journal articles, book chapters, and published conference proceedings. If you are headed to the annual HCD Expo & Conference in Orlando, think about brushing up on your networking banter with some of the latest research. It’s always great plane reading and will get you into the conference mindset.

(Published ahead of print “in press” will be updated as volume and page information becomes available.)
