

A Free Webinar in Celebration of our 25th Anniversary Using Intuition and Research in Socially Responsible Design: ART + Science

Thursday, January 25, 2018
11:00 am Pacific/2:00 pm Eastern

REGISTER TODAY

Duration: 60 minutes

Price: FREE*

Art and Science. In their finest expressions, they are one and the same. We face complex problems and no single approach can provide all the answers. One cannot be a socially responsible designer or scientist without using both intuition and research. This presentation will cite historical and contemporary examples of individuals who support their simultaneous use to achieve creativity. The presentation will include a discussion of the definitions of art and science and the nature of the human mind.

Participants will:

- become aware of the relationship between art and science from ancient times to the present.
- explore the definitions of art and science.
- become exposed to theories regarding the nature of the human mind relative to the debate regarding the meaning of art and science.
- evaluate themselves on the spectrum or artistic orientation versus scientific orientation.

Thanks to our sponsors

*A CEU fee will be charged to process the AIA HSW.

Celebrating
25
YEARS

As a part of our 25th anniversary celebration, we are offering this webinar with the 2017 Changemaker Award winner, Dr. Shepley, free of charge.

Presenting Faculty

Mardelle Shepley,
MArch, MA, DArch,
EDAC, FAIA, FACHA,
LEED BD+C,
Professor and Chair,
Department of
Design + Analysis,
Cornell University

1 unit EDAC continuing education

1 unit AIA continuing education

CEU forms available for download during webinar.
