Yes □ No □ EBD	CLUB4R	the Aging Adult			Yes			

- 1. Reflecting on this article, give an example of how you would apply this research in a current, future, or hypothetical project:
 - A. Project type:
 - B. Nature/description of the problem:
 - C. Description of research used in possible design solutions:
- 2. List four (4) things you learned while reading this article?

- 3. True or False: This research study utilized the known evidence related to the physical environment and examines the role the environment plays in preventing falls and healthcare-acquired infections (HAIs) to identify the research question.
- 4. Patient falls may be prevented by the following physical design elements:
 - a. The location of the hand washing sink.
 - b. Placing patients in private rooms.
 - c. Including non-slip flooring, adequate lighting, and grab rails.
 - d. Having enough space so the family can be present in the room.
- 5. True or False: HAIs are primarily caused by airborne pathogens.
