1. Which is more desirable for Behavioral Emergency Care – direct or indirect supervision?

2. Is it better to integrate BH patient into the ED or keep them somewhat separate?

3. Are there any benefits to a Behavioral Health only ED?

4. To keep costs in line, would it be acceptable to reuse an existing patient toilet for BH pts?

5. Are hold down clips on acoustical tile ceilings an acceptable way to provide security?

6. Color, texture and art have very limited impact on the patient experience?

7. Should Behavioral Health be considered an essential health benefit?

8. If Opioid crises was to be solved, will the need for BH capacity will lessen?

NOTE: To have your credit uploaded to the AIA, you must purchase a CEU Management fee from The Center for Health Design store. This $10.00 fee covers the administrative cost of uploading CEUs to the AIA.  https://www.healthdesign.org/store/products/events-webinars
9. There is only one care model that should be used for Emergency Behavioral Health?

10. Can a regular existing ED patient bathroom be used unsupervised?
