1. Give an example of a product that must be anti-ligature in a behavioral health setting.

2. Define shatterproof.

3. Name 3 types of behavioral health environments.

4. Why would multi-use spaces be beneficial when designing for behavioral health?

5. Give an example of a multi-purpose room.

6. Define a feature of pediatric behavioral health spaces that varies from adult behavioral health spaces.

7. Which spaces are required to be the most secure in the facility?

8. What are the least secure spaces in a behavioral health facility.

9. Name a common pitfall with behavioral health design.

NOTE: To have your credit uploaded to the AIA, you must purchase a CEU Management fee from The Center for Health Design store. This $10.00 fee covers the administrative cost of uploading CEUs to the AIA.  https://www.healthdesign.org/store/products/events-webinars
10. Name an instance a locked door would be required between spaces.
