1. A group of researchers were examining the impact of light levels on medication errors. During the research period new technology was put in place to record medical errors. What is the potential confounding variable in this study?
   a. new medical record technology
   b. variations in light levels
   c. types of medication errors

2. What factors serve as limitations to research in behavioral health settings?
   a. The wide variety in patient types and diagnoses
   b. Difficulty acquiring data from mental health patients
   c. Complexity of obtaining institutional review board approval
   d. All of the above

3. In this study the following rubrics were identified to describe the available research:
   a. Strong evidence, evidence and emerging evidence
   b. Evidence, emerging evidence, best practice
   c. Emerging evidence, studies requiring corroboration, best practice

4. The following are all current trends in behavioral health design except:
   a. More complex spaces and increased access to outdoors.
   b. More common use of multi-patient rooms.
   c. Environments that support recovery, induce shorter stays, and allow the patient to participate in treatment.
   d. Providing environmental flexibility.

NOTE: To have your credit uploaded to the AIA, you must purchase a CEU Management fee from The Center for Health Design store. This $10.00 fee covers the administrative cost of uploading CEUs to the AIA.  https://www.healthdesign.org/store/products/events-webinars
ICONs and Innovators Webinar Series
CEU Verification Form & Quiz

5. All of the following are potential frameworks for addressing research on behavioral health environments except:
   a. Bagheri’s Motivational Theory
   b. Antonovsky’s Salutogenic Theory
   c. Ulrich’s Theory of Supportive Environments

6. Which of these is a long term quality goal defined by the National Quality Forum for making care safer?
   a. Reduce preventable hospital admissions and readmissions.
   b. Reduce the incidence of adverse health care-associated conditions.
   c. Reduce harm from inappropriate or unnecessary care
   d. All of the above.

7. Which of the following information can be obtained from CHD’s Knowledge repository?
   a. Peer reviewed journal articles
   b. Presentations on important topics
   c. Key point summaries of selected articles
   d. Definition of terms

8. Which of the following can you find in a key point summary on CHD’s knowledge repository?
   a. Findings
   b. Limitations
   c. Design Implications
   d. All of the above
   e. None of the above

9. The Center for Health Design has developed Post Occupancy Evaluation tools for which of the following settings?
   a. Cancer Centers
   b. Community Health Centers
   c. Wellness Centers

10. Which of the following is a goal of the Center’s Research Coalition?
    a. Assisting with translation of research into practical design tools
    b. Facilitating the engagement of new researchers in the EBD community
    c. Strengthening CHD’s research team member’s knowledge
    d. All of the above
